

## **CERAKLES NEGRA**

**Self-shining concentrated wax**

### **CHARACTERISTICS**

Concentrated emulsion of waxes and polymers that provides a durable and long-lasting shine to the treated surfaces. Indicated in many areas: terrazzo, slate, thermoplastic surfaces, synthetic, etc.

### **HOW TO USE**

Pure - Apply directly to mop making wax thin and letting it dry.

Dissolved in water - Dissolve CERAKLES INCOLORA in the wash water in a ratio of 10-20%, subsequently washing the surface to be treated. In both cases it is recommended then rub manually or with low-speed rotary machine, for more brightness intensity.

### **PHYSICAL AND CHEMICAL PROPERTIES**

Appearance	Opaque liquid
Colour	Black
Odour	Odourless
pH (10%)	8.1
Density (20°C)	1013 kg/m <sup>3</sup>
Water solubility	It forms an emulsion

### **PRESENTATION**

Container of 5 and 10 litres.

### **PRECAUTION**

**Supplementary information:** EUH208: Contains Mixture of: 5-chloro-2-methyl-4-isothiazolin-3-one and 2-methyl-2H -isothiazol-3-one (3:1). May produce an allergic reaction. EUH210: Safety data sheet available on request. Do not ingest. Keep out of the reach of children. In case of accident, consult to the Medical Service of Toxicological Information tel. 0034 915620420.

### **ADDITIONAL INFORMATION**

While the above information is correct to our criteria, as the conditions of use of the product are beyond our control, we disclaim any responsibility for incorrect use of the product.
