

CONCENTRADO C-3

Ammoniated cleaner – PINE aroma
Concentrate product

CHARACTERISTICS

Special product of high concentration. Formulated as an ammonia cleaner, slightly alkaline, for general cleaning. It's indicated for the cleaning of all washable surfaces, floors, tiles, bathrooms, kitchens, etc. Pleasantly scented.

HOW TO USE

Not to use without diluting. In order to obtain the wished cleaner, dilute it in water at proportion 1:20. Example: 250 ml (1 glass) of product, to obtain 5 litres of cleaner preparation to use. Once realised the dilution and obtained the cleaner, it will be used of the habitual way: applying it diluted in water, normally 50 ml of product in a bucket of 10 l of water. For difficult dirt the dose can be doubled. Clean with a mop. In manual cleaning it can be used pure with floorcloth or scourer.

PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Transparent liquid
Colour	Green
Odour	Ammoniac
pH (10 %)	11
Density (20 °C)	985 kg/m ³
Solubility	Soluble in water

PRESENTATION

Containers of 250 ml, 1.5 and 5 litres

PRECAUTION

Danger

Hazard statements: Skin Corr. 1B: H314 - Causes severe skin burns and eye damage. Skin Sens. 1B: H317 - May cause an allergy skin reaction.

Precautionary statements: P280: Wear protective gloves/protective clothing/eye protection/face protection. P301+P330+P331: IF SWALLOWED: rinse mouth. Do NOT induce vomiting. P303+P361+P353: IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. P304+P340: IF INHALED: Remove person to fresh air and keep comfortable for breathing. P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P501: Dispose of contents and / or containers in accordance with regulations on hazardous waste or packaging and packaging waste respectively.

Supplementary information: Contains d-limonene, P-mentha-1,3-diene. Do not ingest. Keep out of the reach of children. In case of accident, consult the Medical Service of Toxicological Information Tel. 0034 915 620 420.

Substances that contribute to the classification: Ethoxylated Undecyl Alcohol; Ammonia = 25 %, aqueous solution; Alcohols, C12-14(even numbered), ethoxylated < 2.5 EO, sulfates, sodium salts; P-mentha-1,4(8)-diene
