

DEFORT pH-

pH declassifier

CHARACTERISTICS

Product formulated with mineral acids to lower the pH level in water circuits. pH control is an important factor to avoid the formation of scales. The product can also be used for cleaning and acidic descaling. It does not release gases and vapours and it is easy to apply. It is completely miscible in water in any proportion.

HOW TO USE

One litre of DEFORT pH- on 10000 litres of water decreases the levels of pH three tenths.

PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Dense liquid
Colour	Pink
Odour	Odourless
pH (10%)	1
Density (20°C)	1200 kg/m ³
Water solubility	Soluble in cold water

PRESENTATION

10 litres container

PRECAUTION

Danger

Hazard statements: Met. Corr. 1: H290 - May be corrosive to metals. Skin Corr. 1B: H314 - Causes severe skin burns and eye damage.

Precautionary statements: P234: Keep only in original packaging. P280: Wear protective gloves/protective clothing/eye protection/face protection. P301+P330+P331: IF SWALLOWED: rinse mouth. Do NOT induce vomiting. P304+P340: IF INHALED: Remove person to fresh air and keep comfortable for breathing. P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P310: Immediately call a POISON CENTER or doctor/physician. Do not ingest. Keep out of the reach of children. In case of accident, consult to the Medical Service of Toxicological Information tel. 0034 915 620 420.

Substances that contribute to the classification: Phosphoric Acid.

ADDITIONAL INFORMATION

While the above information is correct to our criteria, as the conditions of use of the product are beyond our control, we disclaim any responsibility for incorrect use of the product.
