

DELENEX DTR

Automatic dishwasher detergent

CHARACTERISTICS

Alkaline controlled foam detergent for the washing of set of dishes and glassware in any dishwashers and water hardness.

Formulated with high alkalinity agent's, high content of lime sequestrants and saponifying power, DELENEX DTR gives a great power of cleaning and degrease, removes all dirt, organic waste and pigmentation spots caused by food remains, whether they are dairy, protein, coffee, tea, wine, etc. and achieving total hygiene.

Thanks to its sequestering effect, prevents scale deposits in the machine and objects to be cleaned.

HOW TO USE

Manually or automatically dispense the product in the washing bath from 2 g per liter in soft water or low hardness. Increase the dose proportionally to the hardness of the water and dirt to eliminate.

It is recommended to work at a temperature between 55-65 °C and follow the instructions of the machine.
