

CHARACTERISTICS

It's an alkaline detergent of high performance and controlled foam for washing of crockery and glassware in all types of automatic dishwashers, indicated in areas with water up to 20 °F lime.

Formulated with high alkalinity agent's, high content of lime sequestrants and saponifying power, DELENEX BL gives a great power of cleaning and degrease, removes all dirt, organic waste and pigmentation spots caused by food remains, whether they are dairy, protein, coffee, tea, wine, etc. and achieving total hygiene.

Thanks to its sequestering effect, prevents scale deposits in the machine and objects to be cleaned.

HOW TO USE

Dose 2-4 ml of product per litter of water, depending on the soiling amount and water hardness. On machines with automatic dosing directly connect the dispenser to the container of detergent.

It is recommended to work at a temperature between 55-65 °C and follow the instructions of the machine.

PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Transparent liquid
Colour	Yellow
Odour	Odourless
pH (10 %)	13
Density (20 °C)	1180 kg/m ³
Solubility in water	Soluble in water

PRESENTATION

5, 10 and 20 litres containers

PRECAUTIONS

Hazard statements: Met. Corr. 1: H290 - May be corrosive to metals. Skin Corr. 1: H314 – Causes severe skin burns and eye damage.
