

## DELENEX M

### Automatic dishwasher detergent semi-hard water

#### CHARACTERISTICS

It's an alkaline detergent of high performance and controlled foam for washing of crockery and glassware in all types of automatic dishwashers, indicated in areas with semi-hard water up to 40 °F lime.

Formulated with high alkalinity agent's, high content of lime sequestrants and saponifying power, DELENEX M gives a great power of cleaning and degrease, removes all dirt, organic waste and pigmentation spots caused by food remains, whether they are dairy, protein, coffee, tea, wine, etc. and achieving total hygiene.

Thanks to its sequestering effect, prevents scale deposits in the machine and objects to be cleaned.

#### HOW TO USE

Add the diluted detergent between 2 and 4 ml/l, by means of automatic dispenser, in the bath of washing of the dishwasher, to a temperature of 55-65 °C. Increase the dose proportionally to the hardness of the water and dirt to eliminate.

#### PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Transparent liquid
Colour	Yellow
Odour	Odourless
pH (10 %)	13
Density (20 °C)	1210 kg/m <sup>3</sup>
Water solubility	Soluble in water

#### PRESENTATION

5, 10 and 20 litres container

#### PRECAUTION

**Hazard statements:** Met. Corr. 1: H290 - May be corrosive to metals. Skin Corr. 1: H314 - Causes severe skin burns and eye damage.
