

DETERSOL IRIS
Complete detergent for coloured clothing
laundry

CHARACTERISTICS

DETERSOL IRIS is a concentrated liquid detergent of high performance, specially formulated for washing coloured garments, which can also be used with linen.

It enhances colours and is effective at any water hardness, acting perfectly with both hot and cold water, considering that the higher the temperature, the higher its effectiveness in cleaning stains.

Due to its specific components, prevents loss of colour and scale deposits in the tissues, leaving clean and deodorized clothes, with a nice touch and lightly scented.

Suitable for cotton or mixed textiles so it is recommended to have special care for delicate textiles (viscose, wool, silk, etc.), testing and checking the results in an inconspicuous area.

HOW TO USE

DETERSOL IRIS is specially formulated for automatic dosing systems, dosing 10-30 ml of product per kilo of dry clothes, depending on to degree of dirt and water hardness. For manual dosing, use the detergent previously diluted with water (10 %).

PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Liquid
Colour	Yellow
Odour	Pleasant
pH (10%)	13.2
Density (20°C)	1060 kg/m ³ .
Solubility	Easily soluble in water

PRESENTATION CONTAINER

5, 10 and 20 containers

PRECAUTION

Danger

Hazard statements: Skin Corr. 1A: H314 - Causes severe skin burns and eye damage.
