

DETERSOL PER-BT
Whitening low temperature
Peracetic acid base

CHARACTERISTICS

Effective whitener, stain remover and deodorant based on peracetic acid and stabilized hydrogen peroxide. Shows a high oxidizing power for low temperature laundry in industrial processes.

Due to its high concentration and high performance, is very effective with water of any hardness. Respects and revives the colours of treated tissues, and can be used on any type of textile fibre (except wool and nylon) without degrading it and achieving a greater duration of the garment.

The product degrades into environmentally friendly waste such as oxygen, water or acetic acid.

HOW TO USE

DETERSOL PER-BT can be used alone during the bleaching bath or in combination with the detergent simultaneously performing a washing and bleaching process obtaining a higher performance. The usage rate varies from 3 - 10 ml per kilo of dry clothes, depending on the hardness of the water, dirt to remove and level of the bath water.

To obtain the best whitening performance, the washing temperature should be between 40 ° and 60 ° C with the pH level being 10 in the wash bath.

For shock treatments these doses must be increased to 15-20 ml per kilogram of dry clothes, depending on the degree of yellowing or creasing of the tissues.

PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Liquid
Colour	Colourless
Odour	Spicy
pH	2
Density (20°C)	1100 kg/m ³
Water solubility	Easily soluble in water

PRESENTATION

23 litres container

PRECAUTION

Danger

Hazard statements: Org. Perox. F: H242 - Heating may cause a fire. Skin Corr. 1A: H314 - Causes severe skin burns and eye damage. STOT SE 3: H335 - May cause respiratory irritation.

Precautionary statements: P210: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P280: Wear protective gloves/protective clothing/eye protection/face protection. P301+P330+P331: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P370+P378: In case of fire: Use ABC powder extinguisher to extinguish. P501: Dispose of contents and / or containers in accordance with regulations on hazardous waste or packaging and packaging waste respectively. Do not ingest. Keep out of reach of children. In case of accident, consult to the Medical Service of Toxicological Information Tel. 0034 915620420.

Contains: Hydrogen peroxide, acetic acid and peracetic acid.

ADDITIONAL INFORMATION

While the above information is correct to our criteria, as the conditions of use of the product are beyond our control, we disclaim any responsibility for incorrect use of the product.
