

## CHARACTERISTICS

It is a biocide detergent, specially formulated for contact cleaning and contact disinfecting all surfaces, machinery and equipment in the food industry. Effective against a broad spectrum of microorganisms, including Gram + and Gram-bacteria, and other related food industry.

It complies with Standard UNE-EN 13697:2002 for the evaluation of bactericidal and fungicidal activity of chemical disinfectants used in food, industrial, domestic and institutional areas.

Bactericidal activity diluted in water at 10 % at 5 minutes (*Listeria monocytogenes*, *Escherichia coli*, *Pseudomonas aeruginosa*, *Enterococcus hirae* and *Staphylococcus aureus*) and fungicidal activity diluted in water at 10 % at 15 minutes (*Aspergillus niger* and *Candida albicans*).

It complies with Standard UNE-EN 1650:2008+A1:2013, for evaluation of fungicidal activity of chemical disinfectants and antiseptics used in food, industrial, domestic and institutional areas, diluted in water at 5 % at 15 minutes (*Aspergillus niger* and *Candida albicans*).

## HOW TO USE

Air disinfection: Spraying the diluted product in water. Application by specialized staff and it is recommended a security within 3 hours in the absence of people and food, being aired properly before entering the premises.

Disinfection of contact: For surfaces and equipment the diluted product is applied by spraying, cloth, sponge or mop manual washing. For foam application spray it with foam generating equipment, creating a layer that covers the surface, respecting contact times and rinse with plenty of water.

Application by professional personnel.

**Registration Number:** 18-20/40-05960 HA

## PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Transparent liquid
Colour	Colourless
Odour	Odourless
pH (10%)	10
Density (20°C)	990 kg/m <sup>3</sup>
Water solubility	Easily soluble in water

## PRESENTATION CONATINER

5, 10 and 20 litres container

## PRECAUTION

Danger

**Hazard statements:** Aquatic Chronic 3: H412 - Harmful to aquatic life with long lasting effects. Eye Dam. 1: H318 - Causes serious eye damage. Skin Irrit. 2: H315 - Causes skin irritation.

**Precautionary statements:** P273: Avoid release to the environment. P280: Wear protective gloves/protective clothing/eye protection/face protection. P501: Dispose of the contents/containers in accordance with the current legislation on waste treatment. Before using the product read the label carefully. Do not ingest. Keep out of reach of children. In case of accident, consult to the Medical Service of Toxicological Information Tel. 0034 915620420.

**Substances that contribute to the classification:** 3 % Ethoxylated Undecyl Alcohol; 2 % Didecyldimethylammonium chloride and 100 % Excipients q. s. f.

## ADDITIONAL INFORMATION

While the above information is correct to our criteria, as the conditions of use of the product are beyond our control, we disclaim any responsibility for incorrect use of the product.
