

KENEX DES-HC

Degreaser for convection ovens

CHARACTERISTICS

KENEX DES-HC is an alkaline degreasing cleaner formulated for the cleaning of ovens with automatic washing systems.

It cleans easily without affecting the internal surfaces of polished steel, being very effective in cleaning the most encrusted dirt, protein residues, burned fat, etc. and both cold and hot (max 50° C).

It can be used with all types of automatic self-cleaning systems of convection and steam ovens and the daily cleaning of the same ensures the level of hygiene of the oven and its useful life.

As an additive for water in the rinse cycle, we recommend using the DELENEX ACL-HC water repellent, which perfectly complements the cleaning function of the oven.

HOW TO USE

Automatic cleaning: Follow the manufacturer's instructions and connect the KENEX DES-HC container to the dosing system of the oven self-cleaning system, selecting the appropriate washing program according to the degree of dirtiness.

Manual cleaning: Spray the product inside the oven, with special emphasis on the dirtiest parts, letting it work for a few minutes and rinsing well with water. Heat the oven to 50 °C in case of very embedded dirt. In both types of cleaning optimal results are obtained and without product residues that may interfere with the aroma or flavour of the food.

PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Liquid
Colour	Reddish
Odour	Odourless
pH (10%)	12,5
Density (20°C)	1070 kg/m ³
Solubility	Easily soluble in water

PRESENTATION CONATINER

5 and 10 litres containers

PRECAUTIONS

Danger

Hazard statements: Skin Corr. 1A: H314 - Causes severe skin burns and eye damage.

Precautionary statements: P280: Wear protective gloves/protective clothing/eye protection/face protection. P301+P330+P331: IF SWALLOWED: rinse mouth. Do NOT induce vomiting. P303+P361+P353: IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. P304+P340: IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P310: Immediately call a POISON CENTER or doctor/physician. Do not ingest. Keep out of the reach of children. In case of accident, consult to the Medical Service of Toxicological Information Tel. 0034 915620420

Substances that contribute to the classification: Potassium hydroxide; 1-Propanaminium, 3-amino-N-(carboxymethyl)-N,N-dimethyl-, N-(C12-18(even numbered) acyl) derivs., hydroxides, inner salts.

ADDITIONAL INFORMATION

While the above information is correct to our criteria, as the conditions of use of the product are beyond our control, we disclaim any responsibility for incorrect use of the product.
