

## KLARAN INVERNADOR

### Maintenance of swimming pools water

#### CHARACTERISTICS

Highly concentrated product, formulated to facilitate the maintenance of water in the swimming pools during the winter period. It facilitates cleaning and tuning the pool early season. It keeps the pool walls and bottom clean, without the risk of slipping.

#### HOW TO USE

At the end of the season, and with the water in perfect condition, add 2-4 litre per 50 m<sup>3</sup> of water, spreading the product around the perimeter of the pool and with the filter running. After a few hours, stop the filtration equipment.

In areas with mild winters, it may be necessary to repeat the treatment every 3 or 4 months. Rinse vigorously three times each package you use, pouring the washing water to the pool.
