

## KLARAN L-COLORO

Chlorinated disinfectant for pool water

### CHARACTERISTICS

Bactericide formulated with sodium hypochlorite with 150 g/l, indicated for the disinfection and maintenance of swimming pool water.

Microbiological properties on antiseptics and chemical disinfectants and standards that meet: Standard UNE-EN 1040:2006, for the evaluation of bactericidal activity.

### HOW TO USE

Chemical treatment is not performed directly on the swimming pool. The water must flow through the various treatment unit processes before moving to the vessel. In situations, the chemical treatment may be performed in the vessel itself, always, after closure of the vessel and no swimmers in it, ensuring security within before their new commissioning.

Starting dose: Add 4-5 l directly per 100 m<sup>3</sup> of water.

Maintenance dose: Add 2.5 liters approx. per 100 m<sup>3</sup> of water directly every day at sunset, or by dosing equipment. The chlorine level should be checked daily with appropriate analysis kit and kept between 0.6 and 1.5 p.p.m.

Rinse vigorously three times each package you use, pouring the washing water to the pool.

Application by the general public and/or by professional staff.

**Number of R.D.G.S.P. approval:** 16-60-08084

### PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Transparent liquid
Colour	Yellowish
Odour	Chlorine
pH	12
Density (20 °C)	1235 kg/m <sup>3</sup>
Solubility	Easily soluble in water

### PRESENTATION

10 and 20 litres container

### PRECAUTION

Danger

**Hazard statements:** Skin Corr. 1B: H314 - Causes severe skin burns and eye damage. Aquatic Acute 1: H400 - Very toxic to aquatic life.

**Precautionary statements:** P102: Keep out of reach of children. P260: Do not breathe dust/fumes/gas/mist/vapours/spray. P280+P264 Wear protective gloves/protective clothing/eye protection/face protection. P273: Avoid release to the environment. P363: Wash contaminated clothing before reuse. P391: Collect spillage. P405: Store locked up. P501 Dispose of the contents/containers in accordance with the current legislation on waste treatment

**Supplementary information:** EUH031: Contact with acids liberates toxic gas. EUH206: Warning! Do not use together with other products. May release dangerous gases (chlorine). Read the label carefully before using the product. Do not ingest. In case of accident, consult the Medical Service of Toxicological Information Tel. 0034 915 620 420.

**Substances that contribute to the classification:** 12 % Sodium hypochlorite, solution 10% < Cl < 20% and 100 % excipients q. s. f.

### ADDITIONAL INFORMATION

While the above information is correct to our criteria, as the conditions of use of the product are beyond our control, we disclaim any responsibility for incorrect use of the product.
