

LAVAPER ENZ BOX+C

Enzymatic moisturizer and stain remover
Super concentrate BOX+C system

CHARACTERISTICS

LAVAPER ALC BOX+C is used in textile washing, both in professional laundries and in hotels and residences, for cleaning stains of a biological nature, grease and cosmetics.

It is a highly concentrated product with great moisturizing and degreasing power, which can be used to wash all types of clothes.

Due to its great wetting power, it penetrates between the fibers of the clothing, coming into contact with dirt and allowing the detergent used in the next phase to easily penetrate the fabrics. The presence of enzymes enhances the removal of organic stains (tomato, fruit, wine, etc.) and fats.

HOW TO USE IT

It can be used in manual and automatic washing of clothes, in both cold and hot water following the doses indicated in the following table, expressed in g/kg of dry clothes:

Type of dirt	g/kg dry clothes
Slightly dirty	0,5 - 1,5
Dirty	1,5 - 4,0
Very dirty	4,0 - 8,0

In hard and very hard waters it is recommended to increase the doses by 30%. In tunnels washes they can be reduced by 10% due to the greater mechanical action in the wash.

PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Liquid
Colour	Colourless
Odour	Characteristic
pH	8.2
Density (20 °C)	960 kg/m ³
Solubility	Easily soluble in water

PRESENTATION

Box with 10 liter bag

PRECAUTION

Danger

Hazard statements: Acute Tox. 4: H302 - Harmful if swallowed. Aquatic Chronic 1: H410 - Very toxic to aquatic life with long lasting effects. Eye Dam. 1: H318 - Causes serious eye damage. Skin Irrit. 2: H315 - Causes skin irritation. Skin Sens. 1: H317 - May cause an allergic skin reaction.

Precautionary statements: P264: Wash thoroughly after handling. P280: Wear protective gloves/protective clothing/eye protection/face protection. P302+P352: IF ON SKIN: Wash with plenty of water.
