

LAVAPER COM BOX+C
Complete detergente
Super concentrate BOX+C system**CHARACTERISTICS**

LAVAPER COM BOX+C is used in textile washing, both in professional laundries and in hotels and residences, for cleaning dirty or very dirty clothes.

It is an alkaline liquid laundry detergent, being formulated with a complex mixture of alkalis, anionic and non-ionic surfactants, sequestrants, optical brighteners and perfume.

Its alkalinity and the surfactants present allow the saponification of oils and fats, easily removing dirt and being effective in both hot and cold water.

It contains sequestering agents that complex the calcium ions present in the water, avoiding the precipitation of salts in hard water, so it can be used in water of any hardness.

It can be used on both white and coloured clothing.

Do not use for washing delicate clothes.

HOW TO USE IT

It can be dosed in both cold and hot water following the doses indicated in the following table, expressed in g/kg of dry clothes:

Type of dirt	Pre-wash	Wash (with pre-wash)	Wash (without pre-wash)
Slightly dirty	3 - 4 g	6 - 7 g	7 - 8 g
Dirty	4 - 5 g	7 - 8 g	8 - 10 g
Very dirty	5 - 6 g	8 - 10 g	10 - 11 g

In hard and very hard waters it is recommended to increase the doses by 30%. In tunnels washes they can be reduced by 10% due to the greater mechanical action in the wash.

PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Liquid
Colour	Beige
Odour	Pleasant
pH (1 %)	12
Density (20 °C)	1150 kg/m ³
Solubility	Easily soluble in water

PRESENTATION

Box with 10 liter bag

PRECAUTION

Hazard statements: Skin Corr. 1: H314 - Causes severe skin burns and eye damage.

Precautionary statements: P280: Wear protective gloves/protective clothing/eye protection/face protection. P301+P330+P331: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. P303+P361+P353: IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. P304+P340: IF INHALED: Remove person to fresh air and keep comfortable for breathing. P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P310: Immediately call a poison center/doctor.

Supplementary information: Do not ingest. Keep out of the reach of children. In case of accident, consult to the Medical Service of Toxicological Information Tel. 0034 915620420.

Substances that contribute to the classification: Alcohols, C12-18, ethoxylated; sodium hydroxide.
