

LAVAPER PLH

Wetting and concentrated stain remover

CHARACTERISTICS

Concentrated detergent formulated with non-ionic surfactants of great moisturizer and degreaser power. It reinforces the prewash processes and washing textiles in garments with high dirt stains, obtaining excellent results even at low temperatures and hard water.

The absence of optical brighteners makes it suitable for use in coloured clothes.

It is recommended to have special care with delicate textiles (viscose, wool, silk, etc.), checking the result in an inconspicuous area.

HOW TO USE

LAVAPER PLH must be used alone or in combination with the main detergent or the alkaline component, forming an effective laundry detergent.

Specially formulated for automatic dosing systems, taking into account the following doses depending on the dirt and water hardness: Soft water: 3-6 ml/kg of dry clothes. Semi-hard water: 5-10 ml/kg of dry clothes. Hard water: 8-15 ml/kg of dry clothes.

You can also apply directly on stains prior to washing process time, acting as a stain remover.

PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Liquid
Colour	Colourless
Odour	Characteristic
pH (10%)	8.5
Density (20 °C)	980 kg/m ³
Solubility	Soluble in water

PRESENTATION

20 containers

PRECAUTION

Danger

Hazard statements: Eye Dam. 1: H318 - Causes serious eye damage. Acute Tox. 4: H302 - Harmful if swallowed.
