

LAVAPER TEDE

Wetting and stain remover

CHARACTERISTICS

Formulated with non-ionic surfactants of great moisturizer and degreasing power, it reinforces the processes of prewash and washing textiles in garments with high dirt stains.

The absence of optical brighteners makes it suitable for use in colour clothing obtaining excellent results even at low temperature and with hard water.

It is recommended to have special care with delicate textiles (viscose, wool, silk, etc.) checking before the result of the action of the detergent in an inconspicuous area.

HOW TO USE IT

LAVAPER TEDE must be used alone, in combination with the main complete detergent or the alkaline washing component, forming an effective laundry detergent. Specially formulated for automatic dosing systems, taking into account the following doses depending on the dirt and water hardness:

Soft water: 4-8 ml / kg of dry clothes. S

emi-hard water: 5-10 ml / kg of dry clothes.

Hard water: 6-12 ml / kg of dry clothes.

You can also apply the product directly on the stains prior to the washing process, acting as a stain remover.

PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Liquid
Colour	Sky blue
Odour	Characteristic
pH (10%)	7.5
Density (20°C)	994 kg/m ³
Solubility	Soluble in water

PRESENTATION

20 litres container

PRECAUTION

Danger

Hazard statements: Eye Dam. 1: H318 - Causes serious eye damage. Acute Tox. 4: H302 - Harmful if swallowed.
