

LUBACIN A
Concentrated bactericidal
without colouring nor perfumes

CHARACTERISTICS

Powerful bactericide with active quaternary ammonium base that makes it effective face of an ample range of germs and Gram + and Gram- bacteria.

Formulated especially for Food Industry: meat, fish, canning, drinks, etc. A 1 % solution contains 1000 ppm of active ingredient and is effective in the disinfection of pavements, surfaces, walls, machinery, utensils, etc.

Microbiological properties on chemical disinfectants and standards that meet:

Standard UNE-EN 13697:2002 for the evaluation of bactericidal activity of chemical disinfectants used in food, industrial, domestic and institutional areas.

Bactericidal activity diluted in water at 1 % in 5 minutes (*Escherichia coli*, *aeruginosa Pseudomonas*, *Enterococcus hirae*, *Staphylococcus aureus*) and at 3 % in 5 minutes (*Listeria monocytocenes*).

HOW TO USE

Before applying this product you must carry out a deep cleaning.

Dilute LUBACIN A in water at 1-3 % and use by immersion of pieces or spray on the surface and equipment to treat, let it act for at least 5 minutes and then rinse with drink water.

Application by professional personnel.

Nº Inscription Plague Registry: 15-20-03088 HA

PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Transparent liquid
Colour	Colourless
Odour	Odourless
pH (10 %)	8
Density (20 °C)	990 kg/m ³
Solubility	Soluble in water

PRESENTATION

1.5, 5, 10 and 20 litres container

PRECAUTION

Danger

Hazard statements: Aquatic Chronic 2 H410 Very toxic to aquatic life with long-lasting effects. Skin Corr. 1B: H314 - Causes severe skin burns and eye damage.

Precautionary statements: P102: Keep out of reach of children. P260: Do not breathe dust/fumes/gas/mist/vapours/spray. P280+P264+P363 Wear protective gloves/protective clothing/eye protection/face protection. Wash thoroughly after handling. Wash contaminated clothing before reuse. P273: Avoid release to the environment. P391: Collect spillage. P405: Store locked up. P501: Dispose of contents/container in accordance with local/regional/national/international regulation. Before using the product, read the label carefully. Do not ingest. In case of accident, consult the Medical Service of Toxicological Information Tel. 0034 915 620 420.

Substances that contribute to the classification: 9.9 % Quaternary ammonium compounds, benzyl-C12-16-alkyldimethyl, chlorides and 100 % Excipients q. s. f.
