

## CHARACTERISTICS

Powerful perfumed bactericidal disinfectant of general use, with active quaternary ammonium base that makes it effective face of an ample range of germs and Gram+ and Gram- bacteria.

A solution at 1 % contains 1000 ppm of active principle and it's not corrosive for the treated surfaces, indicated for the prevention of contagions in bathrooms, floors, walls and machinery in changing rooms, sports clubs, schools, pool facilities, camping, hotels, etc., as well as for the disinfection of equipment and conditioned air canalizations.

Microbiological properties on chemical disinfectants and standards that meet:

Standard UNE-EN 13697:2002 for the evaluation of bactericidal activity of chemical disinfectants used in food, industrial, domestic and institutional areas.

Bactericidal activity diluted in water to 1.5 % in 5 minutes (*Pseudomonas aeruginosa*, *Escherichia coli*, *Staphylococcus aureus* and *Enterococcus hirae*).

## HOW TO USE

Apply after the cleaning. Dilute at 1.5 %. Use the disinfectant dissolution by immersing the pieces or spraying on the surfaces and equipment to be treated, letting it act for at least 5 minutes.

Disinfection surfaces and equipments of surfaces of general use. Application by specialized staff.

**Nº Inscription Plague Registry:** 15-20-03087

## PHYSICAL AND CHEMICAL PROPERTIES

|                 |                       |
|-----------------|-----------------------|
| Appearance      | Transparent liquid    |
| Colour          | Blue                  |
| Odour           | Eucalyptus            |
| pH (10 %)       | 8                     |
| Density (20 °C) | 990 kg/m <sup>3</sup> |
| Solubility      | Soluble in water      |

## PRESENTATION

5 litres container

## PRECAUTION

Danger

**Hazard statements:** Aquatic Chronic 1: H410 - Very toxic to aquatic life with long lasting effects. Skin Corr. 1B: H314 - Causes severe skin burns and eye damage.

**Precautionary statements:** P102: Keep out of reach of children P260: Do not breathe vapours. P264: Wash thoroughly after use. P273: Avoid release to the environment. P280: Wear protective gloves/protective clothing/eye protection/face protection. P363: Wash contaminated clothing before reuse. P391: Collect spillage. P405: Store locked up. P501: Dispose of contents and / or containers in accordance with regulations on hazardous waste or packaging and packaging waste respectively.

**Supplementary information:** EUH208: Contains Eucalyptus globulus, ext. May produce an allergic reaction. Before using the product, read the label carefully. Do not ingest. In case of accident, consult the Medical Service of Toxicological Information Tel. 0034 915620420

**Substances that contribute to the classification:** 10 % Quaternary ammonium compounds, benzyl-C12-16-alkyldimethyl, chlorides and 100 % excipients s. q. f.

## ADDITIONAL INFORMATION
