

LUBACIN BIO-L

**Biological deodorizing
cleaner for organic waste**

CHARACTERISTICS

Liquid preparation consisting of biodegradable detergents, microorganisms and enzymes that degrade organic matter (oils, sauces, fats, proteins, starch, vomiting, etc.).

Formulated for biological odour control in urinals, toilets, carpets, drains, septic tanks, buckets and trash cans.

It is also indicated for preventive treatments of the pipes, facilitating the operation of the systems of evacuation of the grease collectors, maintaining the biological balance and controlling the odours.

Its use is exempt of any danger, being indispensable in the kitchens, catering industry and hospitality.

HOW TO USE

Surfaces: For proper cleaning and deodorizing, spray pure or diluted to 50 % in warm water on surfaces, leaving the product work and do not rinse afterwards.

Drainage: Dose manually 100-200 ml per week approx. However, the severity of the problem will be the indicator dial the dose to use. It can also be automatically dosed with the specific doser for this application, regulating the daily dose to be applied depending on the needs in every case.

The results are seen between 15-30 days from the start of the application.

PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Opaque liquid
Colour	White
Odour	Mint-lemon
pH	8.7
Density (20°C)	1000 kg/m ³
Solubility	Soluble in water

PRESENTATION

1 and 20 litres container

PRECAUTION

Danger

Hazard statements: Eye Dam. 1: H318: Causes serious eye damage

Precautionary statements: P280: Wear protective gloves/protective clothing/eye protection/face protection. P305+351+338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing. P310: Immediately call a POISON CENTER/doctor. Do not ingest. Keep out of the reach of children. Read the label carefully before using the product. In case of accident, consult to the Medical Service of Toxicological Information Tel. 0034 915620420

Supplementary information: Contains (Mixture of: 5-chloro-2-methyl-2H-isothiazol-3-one [EC no. 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3: 1).). May produce an allergic reaction.

Substances that contribute to classification: Sodium dodecylbenzenesulfonate; Decan-1-ol, ethoxylate

ADDITIONAL INFORMATION

While the above information is correct to our criteria, as the conditions of use of the product are beyond our control, we disclaim any responsibility for incorrect use of the product.
