

LUBACIN VG
Bactericide - Fungicide
Chlorine Base

CHARACTERISTICS

Powerful non-foaming bactericide and fungicide, formulated with sodium hypochlorite with 150 g/l of active chlorine, which makes it effective against a wide spectrum of microorganisms, Gram+ and Gram-bacteria, fungi and yeasts.

Formulated specifically for the Food Industry: processing of vegetables, meat, fish, canned, dairy, etc., for the disinfection of all types of surfaces, floors, walls, machinery, equipment, etc. It does not generate foam, can be used in CIP equipment, and to dilutions of use the product is compatible with the vast majority of materials: Teflon, polyethylene, stainless steel, etc.

It complies with Standard UNE-EN 13697:2002 for the evaluation of bactericidal and fungicidal activity of chemical disinfectants used in food, industrial, domestic and institutional areas.

Bactericidal activity diluted in water at 0.1 % at 5 minutes (*Listeria monocytogenes*, *Escherichia coli*, *Pseudomonas aeruginosa*, *Enterococcus hirae* and *Staphylococcus aureus*).

Fungicidal activity diluted in water at 0.3 % at 15 minutes (*Aspergillus niger* and *Candida albicans*).

Storage conditions: Chlorine degrades easily, so store it in a cool place, protected from light and for the shortest time possible.

HOW TO USE CONTACT DISINFECTION

Before the application of the product a cleaning will have to be made. Apply LUBACIN VG by spraying, contacting, immersing or circulating on the surface or circuit to be disinfected at a dilution of 0,1 - 0,3 % and leave to act between 5 and 15 minutes, then rinsing with potable water.

Application by specialized staff.

Nº Inscription Plague Registry: 14-20/40-05154-HA

PHYSICAL AND CHEMICAL PROPERTIES

| | |
|-----------------|-------------------------|
| Appearance | Transparent liquid |
| Colour | Yellowish |
| Odour | Chlore |
| pH | 12 |
| Density (20 °C) | 1235 kg/m ³ |
| Solubility | Easily soluble in water |

PRESENTATION

5, 10 and 20 litres container

PRECAUTION

Danger

Hazard statements: Skin Corr. 1B: H314 - Causes severe skin burns and eye damage. Aquatic Acute 1: H400 - Very toxic to aquatic life.

Precautionary statements: P102+P405: Keep out of reach of children. Store locked up. P260: Do not breathe vapours. P273: Avoid release to the environment. P280: Wear protective gloves/protective clothing/eye protection/face protection. P309+P310+P101: IF exposed or if you feel unwell: Immediately call a POISON CENTER or doctor/physician. If medical advice is needed, have product container or label at hand. P391: Collect spillage. P501 Dispose of the contents/containers in accordance with the current legislation on waste treatment

Supplementary information: EUH031: Contact with acids liberates toxic gas. Read the label carefully before using the product. EUH401: To avoid risks to human health and the environment, comply with the instructions for use. Do not ingest. In case of accident, consult the Medical Service of Toxicological Information Tel 0034 915620420

Contains: Sodium hypochlorite, solution 10% < Cl < 20%, with 15% of chlorine; 1 % Sodium hydroxide and 100 % of Excipients q. s. f.

ADDITIONAL INFORMATION

While the above information is correct to our criteria, as the conditions of use of the product are beyond our control, we disclaim any responsibility for incorrect use of the product.
