

NETTION CL

Chlorinated disinfectant cleaner

CHARACTERISTICS

Strong chlorinated alkaline general purpose cleaner and disinfectant with great cleaner and bactericide power due to its content in chlorine. Effective against a broad spectrum of microorganisms and Gram + and Gram- bacteria. It's indicated to clean all washable surfaces, whitening and disinfecting in a single operation and giving the environment a pleasant clean smell.

NETTION CL is the ideal product for the cleaning of floors, toilets, bathtubs, showers, kitchens, etc., preventing the proliferation of microorganisms and avoiding the use of several products.

Microbiological properties on chemical disinfectants and standards that meet:

Standard UNE-EN 13697:2002 for the evaluation of bactericidal activity of chemical disinfectants used in food, industrial, domestic and institutional areas.

Bactericidal activity diluted in water at 1 % in 5 minutes (*Escherichia coli*, *aeruginosa Pseudomonas*, *Enterococcus hirae* and *Staphylococ aureus*).

HOW TO USE

For general cleanings it will dissolve in 1 % water (100 ml per bucket of water 10 litres), respecting contact times. It may double the dose, increasing its cleaning and bleaching power. It can also be used pure on a cloth, sponge or scouring pad.

Contact disinfection of surfaces of general use. Application by professional staff.

Nº Inscription Plague Registry: 17-20-03935

PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Transparent liquid
Colour	Yellowish
Odour	Chlorine
pH (10 %)	12
Density (20 °C)	1100 kg/m ³
Solubility	Soluble in water

PRESENTATION

1, 5 and 10 litres container

PRECAUTION

Danger

Hazard statements: Eye Dam. 1: H318 - Causes serious eye damage. Skin Irrit. 2: H315 - Causes skin irritation.

Precautionary statements: P280: Wear protective gloves/protective clothing/eye protection/face protection. P501: Dispose of contents and / or containers in accordance with regulations on hazardous waste or packaging and packaging waste respectively.

Supplementary information: EUH208: Contains Hydrocarbons, terpene processing by-products. May produce an allergic reaction. Before using the product read the label carefully. Do not ingest. Keep out of reach of children. In case of accident, consult the Medical Service of Toxicological Information Tel. 0034 915620420

Substances that contribute to the classification: Sodium hypochlorite, solution 10%<Cl< 20%, 2% of active chlorine, Amines, C12-14 -alkyldimethyl , N-Oxides and 100 % of Excipients s. q. f.
