

## CHARACTERISTICS

Pressure spray containing a high quality insecticidal formulation with high repelling and flipping action for flying insects. It acts by ingestion and contact. It has a wide spectrum of action, being especially effective against insects typical of the domestic environment (flies, mosquitoes, wasps, etc.).

## HOW TO USE

Manually spray through the passage and nesting areas of insects and do not use in the presence of people and/or pets. Do not spray on food or kitchen utensils. It cannot be applied to surfaces where food is handled, prepared, or used or consumed. Ventilate properly before entering the room where the application is made. After treatment, clean the surfaces that will be in contact with the children. Do not apply with other chemicals. Recommended period of safety for environmental use: 12 hours.

It complies directive 75/324/CEE Aerosol generators. Inadvisable use: It should not be applied with automatic dosing dispenser continuously or discontinuously, nor use dosing valves that allow periodic spraying over time.

Empty containers, product residues and other waste generated during application are considered hazardous waste. Dispose of such waste in accordance with current regulations. Empty containers should be deposited in separate collection containers according to the material of the containers.

Environmental use by the general public.

**Pesticides Registration number:** 18-30-09647

## PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Oily aerosol liquid
Colour	Yellowish
Density (20°C)	897 kg/m <sup>3</sup>
Flash point:	50 °C
Water solubility	Soluble in organic solvents

## PRESENTATION

250 ml Spray

## PRECAUTION

Danger

**Hazard indications:** Aquatic Chronic 1 H410: Very toxic to aquatic life with long-lasting effect. Aerosol 1: H229: Pressurized container: may burst if heated Aerosol 1: H222: Extremely flammable aerosol. EUH066: Repeated exposure may cause skin dryness or cracking.

**Cautionary advice:** P211: Do not spray on an open flame or other ignition source. P273: Avoid release to the environment. P391: Collect spillage. P501: Dispose of contents/container in accordance with local/regional/national/international regulation  
Supplementary information: Read the label carefully before using the product. Protect from sunlight and avoid exposing it to temperatures above 50 °C. Do not pierce or burn, even after use. Do not vaporize into a flame or incandescent body. Keep away from sources of ignition flame. No Smoking. Keep out of the reach of children. In case of accident, consult the Medical Service of Toxicological Information Tel. 915 620 420.

**Substances that contribute to the classification:** 0.8 % Tetramethrin, 12 % Piperonyl Butoxide, 0.2 % Permethrin and 100 % Solvent and Propellant s. q. f.

## ADDITIONAL INFORMATION

While the above information is correct to our criteria, as the conditions of use of the product are beyond our control, we disclaim any responsibility for incorrect use of the product.
